# FALL 1922

## Eastern Nurseries, Inc.

Office and Nurseries, HOLLISTON, MASS.

---

SHIPPING SEASON opens about March 20 to April 1 in the Spring, and continues until May 20 to June 1, and opens about October 1 in the Fall, and continues until the ground freezes. Shipping for **summer planting of Evergreens** opens about August 15th, Pot-grown plants can be shipped and planted at all times.

**ORDERS.**—Write plainly and give explicit directions as to address and mode of shipment; otherwise we will forward according to our best judgment. All goods travel at purchaser's risk. We assume no responsibility for the goods after delivery to the forwarding companies.

When losses occur by delays in delivery, claims should be made at once on the forwarding companies.

**CLAIMS,** to receive consideration, must be made within ten (10) days of receipt of goods.

While we exercise the greatest care to have all Trees, Shrubs and Plants genuine and reliable, and hold ourselves prepared to replace, on proper proof, all that prove untrue, we do not give any warranty, expressed or implied; and in case of an error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the goods.

**PACKING.**—We take great care in packing, using damp moss to protect roots. Boxes and bales are charged for at cost.

**RATES.**—The prices in this list supersede all previous rates, and apply to quantities specified, but two hundred and fifty (250) will be furnished at the thousand rate, twenty-five (25) at the one hundred rate, and five (5) at the ten rate.

This Price List cancels all previous lists and prices are subject to change without notice.

TERMS, CASH WITH ORDERS, except to such persons as satisfy us as to their responsibility. Bills are due when presented and interest will be charged at the rate of six per cent. on bills remaining unpaid December 1 in Fall and June 1 in Spring.

A Certificate of Inspection will accompany each shipment.

Address all communications to office.

## FALL, 1922

Our Evergreens are in especially fine condition this year. Most of them have been transplanted recently and all of them are in excellent condition for August planting. We wish to call special attention to our small Evergreens suitable for hedges, group planting and window-boxes, and to our large specimens for immediate effects. Many of these specimens are of unusual beauty and can be moved on platforms, at special prices, which we will gladly quote upon request.

Look on pages 11 to 16 at our list of Pot-grown Scotch Heather and other ground covers.

A cordial invitation is hereby extended to visit our nursery at any time for the purpose of plant study, or for inspection of saleable stock.

EASTERN NURSERIES, INC.

### EVERGREEN TREES AND SHRUBS

*The prices of Evergreens include the burlapping of balls.*

**For prices see pages 11 - 12**

## EVERGREENS.

---

NOTE. Some of our Dwarf Spruce are wonderful specimens, and most of them have been moved within a year. For formal notes or for the foreground of Evergreen plantings these plants are admirably adapted

**Picea orientalis** Oriental Spruce

		Each	10	100
5 to 6 ft. broad . . .	\$10 to \$12.50	\$	\$	
<b>pungens</b> Green Colorado Spruce				
6 to 7 ft. tr. 1920 . . . .	10.00			
7 to 8 ft. spec. tr. 1920 . .	12.00			
8 to 10 ft. spec. tr. 1920 15 to	30.00			
<b>glauca</b> Colorado Blue Spruce				
5 to 6 ft. tr. 1920 . . . .	10.00			
6 to 7 ft. tr. 1920 . . . .	12.00			
7 to 8 ft. tr. 1920 . . . .	15.00			
8 to 10 ft. tr. 1920 . . 15 to	20.00			
10 to 12 ft. tr. 1920 . . 25 to	45.00			
<b>kosteri</b> Koster's Blue Spruce				
5 to 6 ft. tr. pl. 1920 . . .	13.75			
6 to 7 ft. " " . . . .	15.50			
7 to 8 ft. " " . . . .	20.00			
8 to 10 ft. " " 22.50 to 30.00				

All our specimens of Colorado Spruce, both the Blue forms and the Green forms, were transplanted a year ago and are now in an ideal condition for planting in permanent places.

**Pieris (Andromeda) floribunda** Mountain Fetter Bush

1½ to 2 ft. spread . . . . .	6.00
------------------------------	------

**Pinus cembra** Swiss Stone Pine

3 to 4 ft. . . . .	5.00	45.00
4 to 5 ft. . . . .	7.50	70.00
5 to 6 ft. . . . .	9.00	80.00
6 to 12 ft. . . . . 16.50 to 75.00		

The Swiss Stone Pine is one of the most beautiful of all pines for formal work. The tree is very slow growing, consequently is important for use as accents where one wishes an accent which will stay in scale many years. Our plants are all beautiful specimens.

**flexilis** Limber Pine

3 to 4 ft. . . . .	4.00	35.00
--------------------	------	-------

**montana mughus** Mugho or Dwarf Mountain Pine

15 to 18 in. spread . . . . .	2.25	20.00
1½ to 2 ft. " . . . . .	3.00	27.50
2 to 2½ ft. " . . . . .	4.00	35.00
2½ to 3 ft. " . . . . .	5.00	45.00
3 to 3½ ft. " . . . . .	6.00	55.00
3½ to 4 ft. " . . . . .	7.50	
4 to 5 ft . . . . . 15 to 25.00		

Our entire block of Mugho Pines was transplanted a year ago, and they are now in wonderful condition for planting. Among them are many very fine specimens of the various types of this useful plant.

<b>Calluna vulgaris</b> Scotch Heather, and named varieties			

Scotch Heather, the "Bonnie Purple Heather" of song and verse, is a lovely, low-growing evergreen shrub, 6 in. to 3 ft. in height, of the Heath Family, covered in midsummer with small, bell shaped purple flowers, borne on slender spikes. These flowers stay in good condition for some weeks, and if cut while fresh will hold their color and charm all winter. Honey bees, too, are attracted to Scotch Heather and make from it a honey that is considered very choice. This plant is widely known as invaluable for planting in full sun in sandy soil; it is also most attractive as an edging to beds of Rhododendrons, Laurel, etc., and in Rock Gardens. This little plant gives most satisfaction when planted from pots. Besides the common purple Heather there are many varieties which give variation in the height of plant, color of flowers, and season of bloom. Below we offer a list of varieties, all of which are pot grown, sturdy plants. 2½ in. pots

- var. **alba** White Scotch Heather, early blooming, with light green foliage, white flowers, grows 12 to 15 inches. 2½ and 3 in. pots
- var. **alba elata** Tall White Heather. Late blooming, very tall, straight growth. Foliage soft dark green, flowers white, grows 18 to 24 in. 2½ and 3 in. pots
- var. **alba hammondii** Hammond's White Heather. Mid-season, tall upright growth, foliage rich deep green, flowers white, grows 18 to 24 in. high. 2½ and 3 in. pots
- var. **alba minor** Small-leaved White Heather. Mid-season, tall bushy growth, 15-20 in. high, foliage very fine light green; flowers white. 3 in. pots
- var. **alba pilosa** Late blooming, tall growth 18-20 in. high, foliage of soft grayish green, flowers white. 3 in. pots.
- var. **alba rigida** Late, low rigid growth, foliage rich deep green, flowers white. 2½ and 3 in. pots
- var. **alportii** Late blooming, tall straight growth to 24 in. foliage deep rich green, turning purple in autumn. Flowers rosy carmine. 2½ in. pots
- var. **aurea** Golden foliage and pink flowers, one of the best of those with colored foliage. 3 in. pots
- var. **compacta** Late blooming. Low compact, moss-like growth; 4 to 6 in. high, of bright, rich green. Flowers pale lavender. 3 in. pots

---

For prices see pages 11 - 12

## POT-GROWN PLANTS.

var. *cuprea* Mid-season. Straight medium growth 12 to 15 in. high, foliage bright, almost yellowish green, turning to rich glowing red in autumn. Flowers purple. 2½ and 3 in. pots

var. *hirsuta* (*tomentosa*) Midseason. Low compact growth 4 to 7 in. high, foliage soft gray, flowers purple. 2½ and 3 in. pots

var. *humilis* Low growing, with rich green foliage. Flowers, midseason. white. 3 in. pots

var. *hypnoides* Late blooming. Low-spreading growth, 6 to 12 in. high. Foliage soft deep green, flowers deep pink. 2½ and 3 in. pots

var. *monstrosa* Loose growth. Flowers pink. 3 in. pots

var. *rosea* Mid-season. Tall, straight-growing, with delicate pink flowers. 3 in. pots.

var. *rubra* Early blooming, with low spreading growth, 6 to 12 in. high. Foliage soft green turning purple in autumn. Flowers rosy carmine. 2½ and 3 in. pots

var. *tenella* Early blooming. Low growth with slender spikes of dainty lavender flowers. 2½ in. pots.

NOTE: The Cotoneasters are among the most important groups of hardy plants which have recently been brought before the public. All of them have attractive foliage and conspicuous berries. Of those listed below *C. adpressa*, *horizontalis* and its variety *perpusilla*, and *C. microphylla* are of low-spreading growth, have small glossy, evergreen-like foliage and bright red berries which stay on the shrubs well into the winter. The plants of this group of Cotoneaster are particularly adaptable for use in rockery, on the edge of low shrubberies or on slopes. *C. Dielsiana*, *divaricata* and *salicifolia floccosa* are of more shrub-like growth, with long graceful branches, glossy leaves and bright red berries. All of these plants are hardy and do well in any good well-drained garden soil, but require plenty of water during the first year after transplanting, and take hold much more satisfactorily when transplanted from pots than from the field.

nitida Evergreen Honeysuckle			

A tall-growing, graceful shrub, with long slender branches thickly clothed with small shining evergreen leaves which turn rich purple in the autumn. This beautiful shrub is not quite hardy in the vicinity of Boston; but for southern New England, Long Island, New York and south and west it should prove a valuable garden hedge plant.

2½ in. pots . . . . .	.55	5.00
4 in. pots . . . . .	1.00	
6 in. pots XX specimens . . .	1.50	
pileata		

This Honeysuckle, also, is evergreen. The growth of this

shrub is somewhat stiff, and spreading, the foliage  $\frac{1}{2}$  to 1 inch long, rather box-like, and bright shining green. While still a small plant *L. pileata* is covered with small yellow flowers which produce in early autumn beautiful transparent berries of clear light purple. Like *L. nitida* this shrub does not always survive the severe winters of this climate; but in southern New England and south and west it is one of the most useful and beautiful of the new shrubs. It will serve as a specimen shrub in the garden, a shrub for rock-gardens, or as a low, wide-spreading hedge.

For Cotoneaster <i>divaricata</i> , <i>horizontalis</i> and var. <i>perpusilla</i> see Pot-grown Plants, page 13.			
<b>Crataegus arnoldiana</b> Arnold's Hawthorn			
6 to 7 ft. cut back . . . . .	3.50	32.00	
7 to 8 ft. " . . . . .	4.50	40.00	
8 to 9 ft. " . . . . .	5.50		
This is one of the rarest and most beautiful of all Hawthorns. It has large white flowers in early spring. Even the young trees offered by us bear quantities of large round edible scarlet fruits in August and September, and, later, the substantial leaves turn a beautiful scarlet. A beautiful small flowering tree, suitable as a specimen, for planting in groups on the edges of woods, or near the sea.			
<b>crus-galli</b> Cockspur Thorn			
6 to 7 ft. . . . .	2.25	20.00	150.00
7 to 8 ft. . . . .	2.75	25.00

15 to 18 in. . . . .	1.00	7.50		
18 to 24 in. . . . .	1.25	10.00		
The white and deep yellow Potentillas are charming shrubs of low habit. Their arching branches are covered with delicate divided leaves, and small single flowers, like tiny roses, continuing to bloom from early spring until frost. As a low shrub in the foreground of shrubbery or for the rockery these shrubs are invaluable.
